Homework Assignment 5 due Th 2-28-08 in class

I would like you to submit a two-page summary of your planned project by next Th. Sorry - I want you to do your project by yourself! The purpose of this is to just to get you going asap. You can still change your topic.

- Outline of approach and algorithms that you plan to apply.
You must use the material we covered in class!
- What data do you might want to use?

Some ideas for your project can be found in

<http://www.soe.ucsc.edu/classes/cms242/Winter08/proj/ideas.html>.

I will add more ideas to this file. Pls add yours as well and claim your ideas as soon as you are certain.
