

**UCSC Baskin School of Engineering
Computer Engineering Minor
Curriculum Chart
2004-2005**

The computer engineering minor provides a solid foundation in digital hardware, electronics, and computer software, as well as the prerequisite material in mathematics and physics. The minor is well-suited to students who wish to take part in the design of computer and embedded systems in any discipline. Course 121/L, *Microprocessor System Design and Laboratory*, provides a capstone engineering design experience for students pursuing the computer engineering minor.

Two upper-division courses may be used to satisfy the requirements of another major or minor degree.
