For a double major with degrees A and B you must:

1. Complete all requirements for degree A
2. Complete all requirements for degree B
3. Identify a set C of 40 credits of upper division courses for degree A
4. Identify a set D of 40 credits of upper division courses for degree B which is disjoint from C

This is illustrated by the Venn diagram on the next page.
Upper division courses for degree A

Upper division courses for degree B
